

**You can make history in Chicago. Join us as a Founding Donor!**

We are embarking on an extraordinary endeavor—the Math Cultural Center of Chicago, a groundbreaking initiative that will be a Global Cultural Center dedicated to Math, Art, Technology and History (MATH). Our mission is to connect people to Math through various lenses, including Games, History, Art, Education, Applications, Technology, and weekly live events.

This center will not only be a tribute to the captivating realm of Mathematics but also a tribute to all the incredible things that have been made possible thanks to Math. It will celebrate the profound impact Mathematics has had on our world and the countless discoveries, innovations, and achievements it has enabled.

Enriching the Chicago Cultural Puzzle, this center will serve as a hub of inspiration and exploration for residents and visitors alike. It will be a testament to the transformative power of Mathematics and its pivotal role in shaping our Society.

By partnering with Studio Gang and Zubatkin Owner Representation, renowned experts in creating inspiring spaces, we aim to bring this vision to life. But we need your support as a founding donor to make it a reality.

Your contribution will help us realize the Development Phase of the project. During this phase, we will collaborate with world renowned mathematicians, as well as experts in education and museums, to establish a vibrant and captivating Center in Chicago.

Join us in shaping the future of Mathematics Education and Cultural Exploration. Be part of the legacy that will inspire generations to come. Visit our website or contact us directly to learn more about this extraordinary opportunity and how you can contribute.

Thank you for considering this once-in-a-lifetime opportunity to be one of the Founding Donors of the Math Cultural Center of Chicago. Your support will make a profound difference.

Sincerely,

**Frederic Mahieu**

Founder and President
